Certificate of Erasure

To ensure and to protect customer confidentiality, this is to certify that all data contained within storage drives on goods received by DataMove has been securely erased, with no possibility of data recovery.

Our data erasure processes follow the media sanitisation principles set out in NIST SP 800-88 Rev 2 and the secure sanitisation guidance published by the National Cyber Security Centre, which supersedes HMG Infosec Standard 5. Every drive is erased in full and the result verified and recorded individually.

This certificate covers the job number — **DMD1012**
Source reference ID: **EIS walk**
Specifically in relation to any and all storage devices received from:
Sample Customer Ltd

Job Completion Date: **28 October 2026**
